

PT SAPUTRA GLOBAL HARVEST

COMPANY PROFILE

Indonesian company engaged in agriculture,
fisheries, and animal husbandry

ADDRESS

HEADQUARTER
BAKRIE TOWER, 24th Floor
Jl. HR Rasuna Said, Rasuna Epicentrum
Karet Kuningan, Jakarta Selatan 12940
Indonesia

SAPUTRA

Saputra Global Harvest (SGH) is an Indonesian company engaged in agriculture, fisheries, and animal husbandry located in Jakarta, which has been established since 2011 after conducting a long research from 1993 by Mr. R. Umar Hasan Saputra.

SGH discovered 2 technologies that we have patented and has been proven effectively, which are technology of Essential Nutrient formation and technology of coal-based fertilizer.

ABOUT US

VISION

To make PT. SAPUTRA GLOBAL HARVEST as the first integrated company in the world in business, research and development of essential nutrients for all living things and fertilizer for agricultural as well

Vision Mission & Value

MISSION

- To develop together with all the stakeholders in order to obtain the optimization of production and quality by achieving and maintaining the sustainability of the earth

VALUE

- Farming innovatively, benefits all stakeholders and promotes environmental sustainability
 - Technology transfer of coal fertilizer
- 

SAPUTRA FUTURA FERTILIZER – CARBONTILIZER

CARBONTILIZER is a coal-based fertilizer that is processed using Nutrient Activation Technology, with

the following process:

1. The cutting process of long carbon chain
2. The breaking process of bonds carbon complex, to be simple and 'releasing' the nutrients
3. The activating process of nutrients that had released so can be used by plant

Carbon Fertilizer is the new innovation in micro carbon fertilizer enriched with macro, micro and trace elements to solve global soil problems

CONTENT

N	Mg	Ca	S	C Organic	
Na	Mn	Fe	B	Cu	Humic Acid
Co	Mo	Ni	Zn	K ₂ O	P ₂ O ₅

SAPUTRA NUTRIENT - CELLTILIZER

CELLTILIZER is the complete essential nutrients fertilizer enriched with macro, micro and trace elements, which function to optimize the performance of plant cells and improve the fulfillment of soil and plant needs

CELLTILIZER VEGETATIVE (OPTIMIZING GROWTH PERFORMANCE)

CELLTILIZER GENERATIVE (OPTIMIZING GENERATIVE PERFORMANCE)

THE CONTENT ARE

1. Saccharides
2. Amino Acids
3. Fatty Acids
4. Vitamins
5. FOS & GOS

SAPUTRA PRECURSOR NUTRIENT for Fisheries & Animal Husbandry

SAPUTRA PRECURSOR NUTRIENT is the complete essential nutrients which function to optimize the performance of animal cells and improve the fulfilment of animal needs

PRECURSOR NUTRIENT
FOR POULTRY

PRECURSOR NUTRIENT
FOR LIVESTOCK

PRECURSOR NUTRIENT
FOR FISHERIES

THE CONTENT ARE

- | | |
|----------------|-----------------------------------|
| 1. Saccharides | 4. Vitamins |
| 2. Amino Acids | 5. FOS & GOS |
| 3. Fatty Acids | 6. Digestibility of Protein > 90% |
